High-Performance Sustainable Buildings Designation Program

"The HP-designation investment pays for itself by immediately being able to impact bottom-line operating costs through implementation of low to no-cost sustainable building solutions. The savings can be realized by taking a holistic approach in considering occupant behavior modifications, mitigation of energy usage, as well as reducing water consumption, to name a few".

Chonte' Martin

Department of Enterprise Asset Management | City of Atlanta

The three-course High-Performance Program delivers an integrated and practical curriculum designed by industry leaders and Subject Matter Experts (SMEs) to provide the advanced knowledge you need to:

- Create and apply sustainable initiatives
- Optimize current and future high-performance building operations
- Maximize cost-savings and environmental stewardship
- Increase your earning potential in the industry

*Reduced program cost of \$1,000 made possible by BOMA Georgia Foundation funding. Students are enrolled in and must complete and pass all three courses (7 days total) of programming in the current cycle to earn the BOMI-HP designation. Courses may not be made up in a future year. The BOMI enrollment fee has been waived for this program. Sign up on back!
